ABOUT ME

I am a young developer with a proven admiration for security, looking to enhance my knowledge and assist in the establishment of secure enterprise-wide applications and architectures. Moreover I look forward to working with various teams and experts, to test software and embrace every opportunity to harden systems against new and emerging threats.

EDUCATION

University of the Johannesburg
2018 – 2021
Bcom Information Systems

Hoerskool Volksrust
2012 – 2016
NSC Bachelor's Degree Pass

INTERESTS AND HOBBIES

Cooking, Video Games, Chess, Chess

CECIL CHRIS-ESEMA

Secure Coding Intern

WORK EXPERIENCE

Secure Coding Intern

Dimension Data Security (NTT)

06/2019 – Present

- Dimension Data Dash Project
 - Debut feature in a self-paced project, a security enablement tool for internal use, it required
- Justin Time Project
 - Partnered with BriteHouse IW & 2.0 graduates as part of my rotation around the business - Collectively developed a Product that extracts timesheet data and encapsulates solutions like SAP, Microsoft Azure Data warehouses, SQL Server and Power BI to produce analytics for the employee and relevant line managers.
 - Played the role of an Agile developer for a full PI 1, with the supervision of Project managers and Scrum experts.
- Doctrina Project
 - Partnered with BriteHouse IW & 2.0 graduates as part of my rotation around the business - Featured in on the UX design as an Agile developer. Refurbished an in-house graduate recruitment tool, based on the individual's skill sets and interests
- Hackfest 2019.1
- Cybersecurity Advisory Exposure:
 - Vulnerability Assessment
 - Threat Risk Assessment
