- Entity Framework Core – Basic

STRENGTHS & WEAKNESSES

- Focused
- Self-motivated
- Diligent
- Patient
- Ambitious
- Responsible
- Perfectionist
- Very technical
- Time management could use improvement
- Presentation experience in the corporate environment

PROJECTS AND EVENTS

- Dimension Data Dash – A tool that enables less technical or new to security employees, get up to speed on the security controls that Dimension Data/NTT offers.
- Justin Time – A time analytics tool that visually displays the hours that employees are working and what exactly they utilized the time for.
- Doctrina – A website that anyone in Dimension Data can access which allows you to view the graduates from different programs as well as more information about each of them.
- Hackfest 2019.1 – An annual event that allows anyone to come up with and work on any cool ideas that they have. These ideas are then developed further if business sees value in it. Dimension Data Glance was an app we created to simplify the ticketing logging system within ITSM. The app came out as the 4th most valuable idea which then gave us an opportunity to develop it further.
- Cybersecurity Advisory exposure – Shadowing of Murray Calderwood, Jason Rogers and Raymond De Klerk during their Cybersecurity advisory sessions with clients.
- Mission 001 – Security sales enablement sessions to enhance the knowledge of security sales people that included partner training and interaction with Cisco, Palo Alto, Fortinet and McAfee.
- SailPoint Identity Day – Acted as a representative of Dimension Data Security for the duration of the event.

CERTIFICATIONS

- AWS Security Fundamentals (2nd Edition)
- AWS Cloud Practitioner Essentials (2nd Edition)
- Fortinet – NSE 1, 2 and 3
- McAfee – Mvision cloud exam
- Cisco Sales Academy – Security systems Engineers Stage 1 & 2
- Palo Alto Networks Accredited Sales Executive (ASE)
